- 236,658,888 I voted no because I think it's important to have the 30 day discussion as set out in the living document. Had the Chiefs started with a proposal and discussion, we would be voting for real on this in a few days from now. Today, 9:36AM

I vote Yes for donating locally.
- 236,658,258 I believe EBCoM should do what EBCoM does best as a group. Our best self is not raising money and donating it. Our best self is working together on projects like Rebuilding Together or the Turkey Drive prep and planning. I think we should be asking how can we best work together while physically apart? That said I am now going to go donate \$250 each to Alameda & Contra Costa Food Banks which I usually make an annual donation to. Today, 9:26AM
- 236,657,553 Open to other ideas and want to follow our established protocol. In thirty days, the need will be as great. Today, 8:55AM
- 236,646,057 This is a gross violation of the long-standing procedures for proposals in the living document. And, asking men to vote on that doesn't make it a valid way to make a decision. Yesterday, 10:42PM

Ask the men what they actually want, and formulate a proposal based on that.
- 236,640,917 Too sudden Yesterday, 3:17PM
- 236,632,919 I want to follow the 30 day process and provide effective method for all men to share relevant concerns or counterproposals. Yesterday, 11:36AM
- 236,629,487 Although I am in favor of making donations to the Food Banks, and doing so soon, I very much appreciate this two step process. It's the right way to approach this. While the need is great - and I've made a personal donation to the ACCBA already - the input and discussion by our membership is one of the really important and wonderful aspects of our community. The diversity of views and expression of those views is one of our strengths and should not be minimized or by-passed. Thank you Chiefs for all your thought and efforts to "herd the cats." Yesterday, 10:09AM

236,626,017	This process violates the spirit and letter of the Living Doument.	Yesterday, 8:31AM
236,624,217	Stick to the rules. If there is a 30 day rule, follow it. The economic problems have only started. Keep your powder dry, and spend your money wisely.	Yesterday, 7:37AM
236,610,324	one member is pushing contra costa. You may as well include Marin and Santa Clara as well. Only Alameda, please. (And I live in Marin)	Thursday, Apr 30th 6:57PM
236,610,130	Appropriate discussion. And then a vote.	Thursday, Apr 30th 6:41PM
236,608,761	Follow our standard procedure for proposals.	Thursday, Apr 30th 4:55PM
236,605,944	We should donate some now and some later. Early donations are nice, but later donations are more valuable because they are given at a time when the early donations are all used up. I recommend \$2,000 to each now, and then \$2,000 to each later (in two months, if the crisis continues) whether "doubling" remains in effect or not.	Thursday, Apr 30th 1:59PM
236,605,557	Please adhere to Living Document procedures. Thanks	Thursday, Apr 30th 1:34PM
236,604,060	I would like to see \$2500 go to each food bank with \$2500 left for other purposes, including supporting EBCOM men.	Thursday, Apr 30th 12:21PM

236,605,944	Food banks ALWAYS need donations. I still think it would be a good idea to CONFIDENTIALLY provide a means whereby our Circle members can let the Chiefs know they need help. What's that expression? "Charity begins at home." Our Circle is our home. Let's "shelter-in-place" within our Circle in a productive and charitable way.	Thursday, Apr 30th 1:59PM
236,605,688	Both of these food banks are in more need of donations right now to buy the food to give to the people in need. We who have much are called on to share the bounty. Love, Will	Thursday, Apr 30th 1:42PM
